

KALCHURI LNCT GROUP INCUBATION CENTER (KLIC-LNCT)

ABOUT KLIC-LNCT

KALCHURI LNCT GROUP OF INCUBATION CENTER (KLIC) to support Atmanirbhar Bharat, which is acting as a catalyst to Central India startup and entrepreneur ecosystem, primary objective of KLIC is to create a startup ecosystem and familiarize the visionary brains with the business aspects of an idea and provide them a platform with necessary resources, culture, opportunities, and amenities to grow their startup units into business enterprises. KLIC is Technology Business Incubation Center, which is connected with Industry Academia and Entrepreneurship is a process of designing, launching and running a new business, which typically begins as a small business, designated as a startup company, offering a product, process or service for selling or hiring. A random idea might lose its track if it is not nurtured regularly in the right way. For a large number of people venturing into the culture of entrepreneurship nowadays, it is very important to educate and support them towards the proper growth of their ideas.

At KALCHURI LNCT GROUP OF INCUBATION CENTER (KLIC), we have taken the charge of providing essential services such as fund support, management, mentorship, co-working space, and state-of-the-art technical assistance to the budding business units. By playing the role of both startup incubator and accelerator, we aim at training and mentoring young people to fuel their inner drive to innovate. KLIC acts as the Hub to its spoke centers located at LNCT BHOPAL, so that with our expertise in various domains of education, subject matter experts along with world class laboratory facility, will support budding entrepreneurs of the region to establish their ventures.

VISION & MISSION

The VISION: To deliver the role of Technology and Business Incubation Center, by nurturing and handholding entrepreneurs and creating alumni institutions/organizations which will support the vision of sustainable India. Develop University/Schools/Colleges mechanism to create entrepreneurs in every field (Medical, Ayurveda, Pharmacy, Engineering, Science, Technology, Social Entrepreneurship, Innovation, Agriculture and Renewable Technology etc.) in University/Schools/Colleges to develop entrepreneurs for generating wealth and employment.

The Mission: To deliver the role of Technology and Business Incubation Center, by nurturing and handholding entrepreneurs and creating alumni institutions/organizations which will support the vision of sustainable India. Develop University/Schools/Colleges mechanism to create entrepreneurs in every field (Medical, Ayurveda, Pharmacy, Engineering, Science, Technology, Social Entrepreneurship, Innovation, Agriculture and Renewable Technology etc.) in University/Schools/Colleges to develop entrepreneurs for generating wealth and employment.

KALCHURI LNCT GROUP INCUBATION CENTER
Est. by KALCHURI INCUBATORS FOUNDATION,
SECTION 8 COMPANY (12A & 80G)

Entrepreneurship typically operates within an entrepreneurship ecosystem which often includes government programs and services that promote entrepreneurship and support entrepreneurs and start-ups; non-governmental organizations such as small business associations and organizations that offer advice and mentoring to entrepreneurs (e.g., through entrepreneurship centers or websites); small business advocacy organizations that lobby the government for increased support for entrepreneurship programs and more small business-friendly laws and regulations; entrepreneurship resources and facilities (e.g., business incubators and seed accelerators); entrepreneurship education and training programs offered by schools, colleges and universities; and financing (e.g., bank loans, venture capital financing, angel investing, and government and private foundation grants).

ACHIEVEMENTS (IF ANY)

1. 12 Funded Startups
2. Ours Incubated Startup Speedy Zeedy previously known as Doosy, working in hyperlocal delivery expanded to Indore from Bhopal as City Expansion
3. Verdant Impact is working in Animal Health Care, and have presence in 8 State and total 10,000+ Tele Health Kisok for Animals treatment
4. AICTE-Idea Lab: having Fab-Lab
5. Having Presence in Bhopal, Indore, Jabalpur & Bilaspur
6. Dedicated Facility for AR-VR technology & Game Development is established by FinTech Edu.

PROCEDURE TO INCUBTE

1. Tinker

Tinker will be the initial stage, in which all the young and aspiring minds will bring on the table the best of their ideas and work on adding value to them. They will be assisted with all the required guidance to decide and achieve their end goal. This stage will majorly focus on adding structure to their raw ideas through rectification, rigorous brainstorming sessions and finalization of essential tools & skill-sets required to achieve their set target.

2. Aspire

At this stage, the budding startups teeming with ideas, will add potential & direction to their plans by finalizing a Call to Action. Through this, they will work on expanding their horizons about startup knowledge and ethics. This program aims at guiding the innovation driven startups during their onset, to convert their invalidated business ideas into a feasible and profitable business proposition. Under this, the startups in their ideation stage with lack of minimum viable product and customer segment would be guided to form a productive team, inculcate entrepreneurial skills and build a sustainable business model for themselves.

3. Accelerates

In the acceleration stage, the startups will learn to leverage technology in order to drive their innovations to the real world market to ensure customer acquisition and revenue generation. The training sessions would be broadly focused on business operations facilitated by seasoned professionals from the field of engineering, which will provide an efficient way forward to the young entrepreneurs.

At this level, the key focus areas would be team-building, customer attraction and enough revenue generation for establishing a strong base. The raw material of innovation needs to be converted into real-world breakthrough success, and this is where the acceleration stage will help you. This program, in particular, steers the individuals in the right direction by making them aware of the process to turn the product insights into a great company. This is a carefully curated incubation program whose key focus area is assisting the individuals in catalyzing their growth and upscaling their limited customer base by adopting the Outlier's Approach towards the culture of entrepreneurship.

4. Augment

As a follow-up of the previous stages, this program will categorically help the startups to earn the market exposure on a wider scale & seek different channels to market their products. This will help in improving the success rate of their contemporary products. Through the competence of the mentors and their exposure to the industry would help the startups in acing the different verticals of the market, so that their venture lives up to its potential and does not fall short in the long run. This is the program which ideally targets the segment of startups which possess a sound customer base and in-hand revenue but fall back in market visibility.

We aim to launch the Accelerator programme for a cohort of startups as per their stages and also to assist them to create a strong revenue base via different rounds of funding by connecting them with professionals from our network of investors on various platforms.

LNCT INCUBATION Center

About Us

Kalchuri LNCT Group Incubation Centre (KLIC) is innovatively designed and operated by LNCT Group, the most trusted and promising group for professional education in Central India. Our core focus areas of incubation and startup support such as Medical, Ayurveda, Dental Care, Hospitality, Renewable Technology, Architecture, Agriculture, SAAS, Software Technology, Bio-Technology, Engineering Technology and Sector Agnostic with a multi-disciplinary approach.

KLIC aims to help every budding Entrepreneur and startup to connect with the people, places, and events around them. In the current era of networking, entrepreneurs with a solid network base are more likely to be successful. With its more than 20,000 Alumni base, the LNCT group is backing the KLIC for global networking which will end up providing international exposure, mentorship and support to the startups. The state-of-the-art infrastructure of KLIC will provide support to you, as you further develop your company/startup. The most promising Incubation Center by the most promising Education Group of central India, also we are focused on United Nations Sustainable Development Goals to be achieved by our incubatcentresters.

Our Mission

A random idea might lose track if it is not nurtured regularly in the right way. For a large number of people venturing into the culture of entrepreneurship nowadays, it is very important to educate and support them towards the proper growth of their ideas.

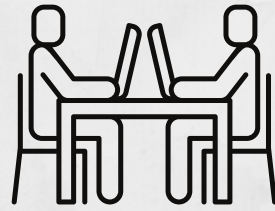

At KALCHURI LNCT GROUP OF INCUBATION CENTER (KLIC), we have provided essential services such as fund support, management, mentorship, co-working space, and state-of-the-art technical assistance to the budding business units. By playing the role of both startup incubator and accelerator, we aim to train and mentor young people to fuel their inner drive to innovate. KLIC acts as the Hub to its spoke centers located at LNCT BHOPAL, so that our expertise in various domains of education, and subject matter experts with world-class laboratory facilities, will support budding entrepreneurs of the region to establish their ventures.

Self Sustainable

KALCHURI LNCT GROUP OF INCUBATION CENTER (KLIC) is promoted by LNCT GROUP OF INSTITUTIONS & UNIVERSITIES to support Atmanirbhar Bharat, which is acting as a catalyst for Central India startup and entrepreneur ecosystem, primary objective of KLIC is to create a startup ecosystem and familiarize the visionary brains with the business aspects of an idea and provide them with a platform with necessary resources, culture, opportunities, and amenities to grow their startup units into business enterprises.
